Languages: Javascript, SQL, CSS, GitBash, Powershell (Terminal), and HTML

Skills and Tools: Version Control (Git and GitHub), Web Development Frameworks (React, Node.js, Storybook, and Express), Databases (MongoDB and AWS DynamoDB), DevOps Tools (Chrome Inspect), Testing & Debugging (Chrome Inspect and Dev Server), NPM Package Managers, Code Editors (Stackblitz, Visual Studio Code, and Replit), Cloud Platforms of Cloundinary, Render and Vercel, AWS S3 Bucket Creation and Mutler S3 Integration with Express, and Testing tools of ThunderClient and Postman.

PROJECTS

Coffee Shop Frontend, Jan 2025 - <https://github.com/trincellshelvin/coffeshop.git>

- A frontend user interface used as an order platform for a coffee shop.
- Single person project built with React, Node.js tested with Storybook. With libraries used by Google Fonts, Tailwind CSS, and Daisy UI. Deployment of projects via Vercel.

Coffee Shop Backend/Server, Dec 2024 -

<https://github.com/trincellshelvin/coffee-shop-backend-auth.git>

- Backend setup of routes and databases for the coffee shop app. It allows for testing of all models, middleware, and routes using Postman or Thunderclient.
- Collaborative team project built with list, tech used, languages, frameworks, libraries, individual cloud services.

Allergy API, Nov 2024- <https://github.com/trincellshelvin/allergyweatherapi.git>

- Create a way for anyone with health issues related to upper respiratory concerns to be able to access weather data relevant to their concern for their area.
- Be able to pull those weather related data along with helpful resources, links and checklist of what to get to be prepared for weather events.
- Printable checklist for users so that they don't have to be on the site to use the checklist.

EXPERIENCE

Telus International, Baton Rouge, LA, Photo Collection & Annotation Freelancer, Jan 2024 – Dec 2024

- Achieved 100% completion of tasks as assigned with reception of up to 4 tasks per day.

- Utilized my photos library to annotate with tags and analytical skills with verbiage about the quality and location tags for each image.

Amazon, Baton Rouge, LA, Customer Service Associate, Nov 2019 – Sep 2022

- Strived for 100% first call resolution of the customer issue via investigation of the concern while remaining within the top 10% of associates in the line of business in the top associate category for first call resolution and customer satisfaction.
- Analytically used various support tools including tools for tracking, email, support, and resolution to resolve the concern for internal and external customers.

The Reed Group, Baton Rouge, LA, Customer Care Specialist, Apr 2022– Jul 2022

- Worked with callers at 100% to submit their leave of absence claims and assist those returning to work to follow the necessary steps to do so.
- Answered calls to ensure accuracy of information provided to callers about their leaves and adjust call in leave entries as needed.
- Review claims to answer questions about the process, missing information, or return to work details and input new claims with explanation of requirements.
